

650—28.1(153) General review. A dentist may represent that the dentist is a specialist in the specialties of dental public health, endodontics, oral and maxillofacial pathology, oral and maxillofacial surgery, orthodontics, pediatric dentistry, periodontics, prosthodontics, or oral and maxillofacial radiology provided the requirements of that area of specialty have been met. The board recognizes there are overlapping responsibilities among the recognized areas of dental practice. However, as a matter of principle, a specialist shall not routinely provide procedures that are beyond the scope of the specialty as defined below.
